

INPETRO COMPANY PROFILE

INPETRO is a prominent petroleum terminal located within Beira Port, focusing on the efficient and safe handling of petroleum products exclusively for its esteemed shareholders.

Company Background

Established in 2002, INPETRO is a joint venture created by three entities: the Independent Petroleum Group (IPG) from Kuwait, the National Oil Infrastructure Company of Zimbabwe (NOIC), and Petróleos de Moçambique S.A. (PETROMOC). This collaboration leverages the expertise and resources of these organizations to efficiently manage a petroleum terminal within Beira Port. Each partner brings its unique strengths to the table, enhancing the terminal's ability to handle and distribute petroleum products effectively and safely.

INPETRO represents a pioneering milestone as the first greenfield terminal developed within Beira Port. Established to create, own, and operate a state-of-the-art clean fuels terminal, INPETRO significantly enhances the infrastructure for handling petroleum products in the region. Its strategic location and advanced facilities are designed to facilitate access to East and Southern African nations, with a particular emphasis on Mozambique, Zimbabwe, Zambia, Malawi, the Democratic Republic of Congo, and Botswana. This development not only supports regional energy needs but also boosts economic and logistical connections across these countries.

Terminal Infrastructure

Overview

INPETRO's terminal, completed between 2004 and 2006, commenced operations in December 2006. It features a robust infrastructure designed to efficiently handle diverse fuel needs.

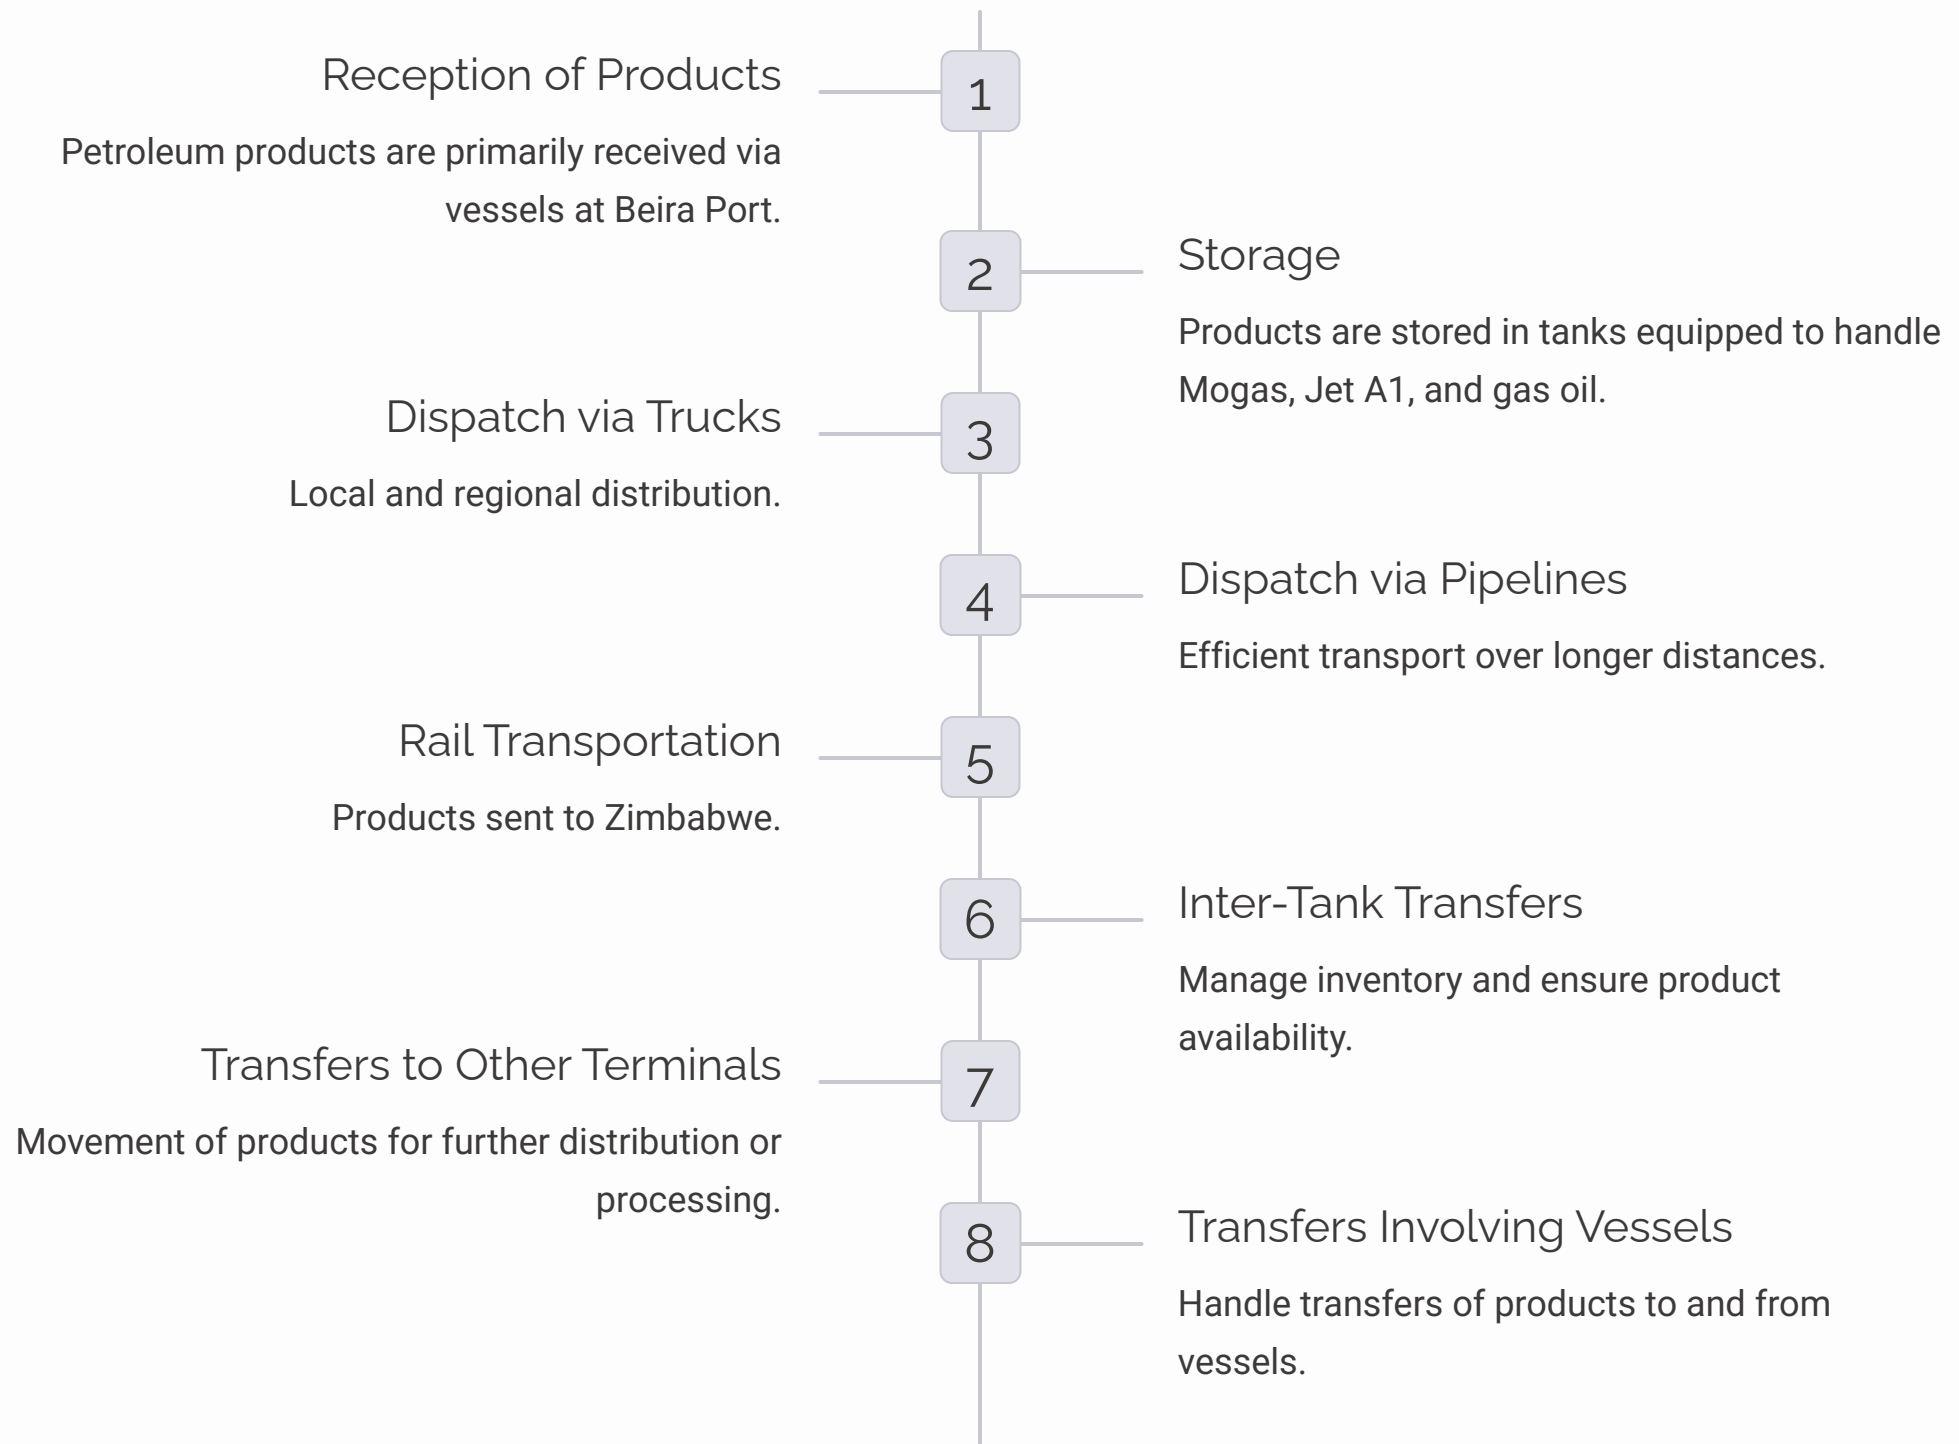

Storage Tanks

The terminal boasts nine storage tanks with a total capacity of 95,000 cubic meters, designed to handle Mogas (petrol), Jet A1 (aviation fuel), and gas oil (diesel).

Capacity Breakdown

- Gas Oil (Diesel): 60% of total capacity (four tanks)
- Mogas (Petrol): 30% of total capacity (three tanks)
- Jet A1 (Aviation): 10% of total capacity (two tanks)

Operational Activities

Quality and Safety Standards

1

ISO 9001 Certification

INPETRO holds the ISO 9001 certification, demonstrating its commitment to maintaining high standards of quality in its operations through a robust Quality Management System.

2

Joint Inspection Group (JIG) Membership

As a member of JIG, INPETRO adheres to stringent Aviation Fuel Supply Standards, ensuring professionalism and reliability in aviation fuel handling.

3

Impeccable Safety Record

INPETRO prides itself on a clean safety record with no major accidents since its inception, achieved through a robust health and safety management system.

Corporate and Social Responsibility

Beyond achieving operational excellence, INPETRO recognizes its role in corporate and social responsibility. The company is dedicated to enhancing the well-being of communities and society through meaningful environmental and social initiatives. INPETRO's commitment extends to implementing measures that positively impact the environment, support local communities, and contribute to broader societal goals, reflecting its holistic approach to responsible and sustainable business practices.

In the pursuit of its vision and mission, INPETRO adopts a holistic approach that integrates economic sustainability with a strong emphasis on social and environmental responsibility. The company is committed to operating in alignment with international standards, ensuring that its practices reflect global best practices.

Community Development Initiatives

INPETRO is actively engaged in several social responsibility initiatives, including:

Community Development: Supporting local communities through Construction of a health centre in Mandruzi-Dondo, fully equipped with modern equipment.

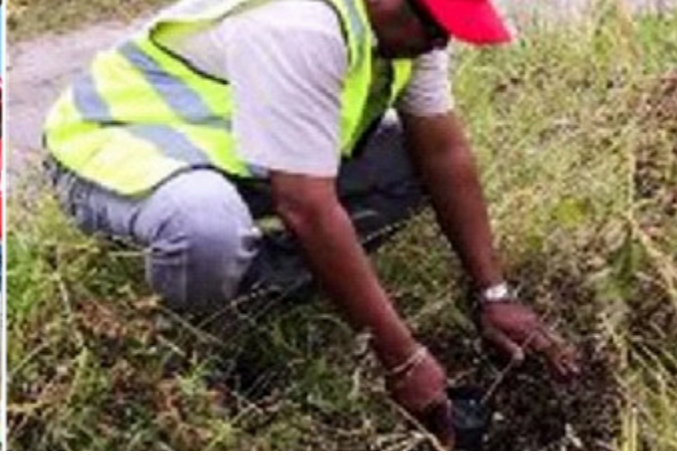

Health Centre Exterior

Health Centre Interior

Health Centre Staff

Environmental Conservation and Education

Environmental Conservation: Implementing measures to minimize environmental impact, such as waste reduction and pollution control, through Pro-Educa project by cleaning the beach and removing all the used bottles and garbage and safe disposal, erosion reduction through tree planting as well as awareness sessions to the community.

Supporting initiatives that enhance hygiene awareness and education within the community, by the Construction of toilets at Ezequiel Guti Primary School.
